

Front-end developer technical test

Please find attached a re-design of Civic Enterprise Leeds.

Use this design to build a responsive website that meets Web Content Accessibility Guidelines (WCAG) 2.1 level AA.

You have creative freedom over how the website works responsively but it must be mobile and tablet friendly.

Do not use any front-end frameworks such as Bootstrap or Foundation.

You may apply any hover and focus treatment to the appropriate elements.

Upload your website to a domain we can access and your files to a GitHub repository that we can review.

Notes

- Images are in attached assets folder
- Icons are using font awesome
- Typography is using Google Fonts Open Sans regular and bold
